PROFESSIONAL SUMMARY

BS Aviation Engineering Technology student with 420 supervised helicopter maintenance hours under the Philippine Air Force 207th Tactical Helicopter Squadron. Self-taught in Linux, Docker, and n8n automation, with a live booking and CRM pipeline running on self-hosted infrastructure. Targeting MRO systems, technical records, and maintenance compliance automation.

TECHNICAL PROJECTS

Independent Operations & Automation Project

Britt's Zen Home Service Massage | Jun 2026 - Present

- Designed, deployed, and now operate an end-to-end booking and lead-capture workflow using Google Forms, Google Sheets, n8n automation, and a self-hosted Baserow CRM.
- Replaced manual record-keeping with a single source of truth; automated lead routing and follow-up tracking.
- Administer the self-hosted stack on a Debian Linux host with Docker, covering deployment, backups, and troubleshooting.

Aircraft Maintenance Log & Compliance Tracker - Capstone, in development

Self-hosted | Baserow + n8n + Docker on Debian | 2026 - Present

- Building a self-hosted inspection logging system with due-date alerting across both calendar days and flight hours, plus an immutable edit history.
- Scoped from paper-based record-keeping observed during a 420-hour live airbase rotation; covers aircraft and component records, inspection scheduling, findings, and audit trail.

AVIATION MAINTENANCE EXPERIENCE

Aircraft Maintenance Trainee (On-the-Job Training)

207th Tactical Helicopter Squadron, Philippine Air Force | Col. Jesus Villamor Air Base, Pasay City | Jun 2026 - Aug 2026

- Completed 420 supervised maintenance hours on Bell 412EP and UH-1H helicopters in a live military airbase environment.
- Assisted in 600-hour inspections, preventive maintenance, component installation, engine ground runs, towing and tie-down, and refueling.
- Applied aviation safety standards daily: tool control, FOD prevention, technical manual reading, and maintenance documentation.
- Coordinated with officers and technicians on daily work assignments, tool crib inventory, and hangar upkeep.

ADDITIONAL EXPERIENCE & LEADERSHIP

Customer Service Representative (in training)

Alorica Philippines - foodpanda voice account | [MONTH] 2026 - Present

- High-volume voice account training; daily practice in strict script compliance and per-transaction documentation.

Office Assistant Intern - Guidance Department

Mano Amiga Academy | Paranaque City | Feb 2023 - Mar 2023

- Front-desk point of contact for students, staff, and visitors; maintained records, filing systems, and reports.

EDUCATION

BS Aviation Engineering Technology - 4th Year Level

Sapphire International Aviation Academy | Paranaque City | 2023 - Present

- Coursework: aircraft maintenance practices, aviation safety and regulations, aircraft systems.

CERTIFICATIONS & LICENSES - IN PROGRESS

- Linux Essentials (Cisco NetAcad) - Nov 2026 | Azure Fundamentals AZ-900 - Dec 2026
- CompTIA Network+ - Mar 2027 | CompTIA Security+ - Jul 2027 | CAAP AMT License - Sep 2027

TECHNICAL SKILLS

Systems: Linux (Debian) administration and CLI troubleshooting; Docker and self-hosted service deployment; backups

Automation: n8n workflow automation; HTTP webhooks; REST API integration; Baserow CRM (self-hosted)

Aviation & Safety: Maintenance support (Bell 412EP, UH-1H); tool control and inventory; FOD prevention; technical manual reading; ground handling assist

Documentation: Google Workspace (Forms, Sheets, Drive); Microsoft Word and Excel; technical and compliance documentation

Languages: English (fluent); Filipino (native)
